# BUSINESS DIRECTORY OF TOWNS. Alphabetically Arranged.

## PRELIMINARY INFORMATION.

1. The names of all the Towns and all the Post Offices in the State, except those which have North, East, South, West or Center prefixed to the names of the towns of which they are a part, are here alphabetically arranged.
2. For villages above excepted, look under the name of the town. But East Kingston, North Hampton, South Hampton, South Newmarket, and Westmoreland are towns.
3. After the name of each town, you find the name of the county in which it is located, the population in 1880, the direction and approximate distance from Concord and from the Shire town of the county, the way of reaching it by rail, the town officers and the professional and business men, arranged under different heads, as nearly alphabetically as is convenient, some regard being had to economy of space.
4. Merchants are supposed to keep a general assortment, and physicians to be "old school" unless otherwise specified.
5. All these items are referred every year, usually between Aug. 1, and Dec. 1, to the Town Clerks, Postmasters or other prominent men of the several towns and villages for correction.
6. We earnestly solicit corrections from all other persons who may notice things which they *know* to be errors.
7. Of course changes are made, in March, of Town Officers, and other changes are constantly occurring, so that one need not expect to find this Directory absolutely correct all the year round, but *use* it with this understanding and you will find it very valuable.

# BUSINESS DIRECTORY OF TOWNS.

## Alphabetically Arranged.

### PRELIMINARY INFORMATION.

1. The names of all the Towns and all the Post Offices in the State, except those which have North, East, South, West or Center prefixed to the names of the towns of which they are a part, are here alphabetically arranged.
2. For villages above excepted, look under the name of the town. But East Kingston, North Hampton, South Hampton, South Newmarket, and Westmoreland are towns.
3. After the name of each town, you find the name of the county in which it is located, the population in 1850, the direction and approximate distance from Concord and from the Shire town of the county, the way of reaching it by rail, the town officers and the professional and business men, arranged under different heads, as nearly alphabetically as is convenient, some regard being had to economy of space.
4. Merchants are supposed to keep a general assortment, and physicians to be "old school" unless otherwise specified.
5. All these items are referred every year, usually between Aug. 1, and Dec. 1, to the Town Clerks, Postmasters or other prominent men of the several towns and villages for correction.
6. We earnestly solicit corrections from all other persons who may notice things which they *know* to be errors.
7. Of course changes are made, in March, of Town Officers, and other changes are constantly occurring, so that one need not expect to find this Directory absolutely correct all the year round, but *use* it with this understanding and you will find it very valuable.
